

# SIPPS<sup>®</sup> Third and Fourth Editions Update

Dear SIPPS Users:

The changes for SIPPS Fourth Edition are to the mnemonics only (the images that remind students of the sounds letters represent). We took this action to align the mnemonics with *Being a Reader, Second Edition* small-group reading. The instruction in SIPPS HAS NOT CHANGED. Only the references to the mnemonics are different.

If you had already purchased SIPPS Third Edition and are buying additional materials, you will receive the Fourth Edition versions of those materials. Note that if you are purchasing Beginning Level, we have added *Learning Letter Names* to the Fourth Edition package.

Teachers can use the list of mnemonic changes below to revert the instruction to the Third Edition mnemonics. The wall cards and wall chart showing the Third Edition mnemonics are available separately.
